SUMMARY

- Experienced full-stack developer with 7+ years of expertise in media, and e-commerce domains.
- Proficient in software delivery with a primary focus on reusable, testable, and flexible code.
- Proven track record in developing RESTful APIs, Event-driven solutions, designing cross-browser interfaces, and AWS-based implementations.
- Known for strong problem-solving abilities, a collaborative teamwork approach, and adaptability in fast-paced environments.

SKILLS

- **Frontend**: HTML/CSS, SCSS, Bootstrap, React/Material-UI, Next.js/Tailwind providing user interface design and responsive development
- **Backend**: Node, Express, Nest, PHP, Laravel, Yii providing RESTful API development, Server-side scripting
- **Database Management**: MySQL/MariaDB, PostgreSQL, and MongoDB provide data modeling, query optimization
- **CI/CD, Tools, and Cloud Services**: Docker, Kafka, Redis, GIT, and AWS provide continuous integration, deployment automation, cloud infrastructure
- **QA**: Unit testing (PHPUnit, Jest), Integration testing (Cypress js), Manual testing (Jira checklists), Selenium tests (maintained legacy Java 8 tests)

STRENGTHS

- **Collaboration and Teamwork:** Experience working in an Agile team, strong communication skills
- **Problem-Solving and Troubleshooting:** Effective issue resolution and debugging skills
- **Adaptability and Fast Learner:** the ability to quickly grasp new technologies and adapt to changing project requirements

PROFESSIONAL EXPERIENCE

Alata, Senior Full Stack Engineer   2023 – Current

Responsible for several internal applications. Providing solutions for core functionality.

- Implemented cross-adaptive data collection to enable third-party payment-based functionality.
- Worked with Kafka broker for messaging. improving partner membership status clarity.
- Introduced a command-based approach to accelerate MongoDB restoration and manipulation, replacing manual methods.
- Led long-term feature development, improving user satisfaction.

Sigma Software, Full Stack Engineer   2020 – 2023

Provided development and maintenance on both front-end and back-end parts of the project that takes a vast European market in the media and streaming industry.

- Successfully transitioned the outdated PHP-based frontend to a modern and efficient Next.js-based solution.
- Implemented a B2B CRM system, enhancing customer service for account managers and improving partner membership status clarity.
- Played a significant role in a high-load, complex legacy PHP-based application.

Altexsoft, Junior PHP/Full Stack Developer   2018 – 2020

Contributed to projects as an outsourced resource I have been on 4 different projects related to E-commerce and SaaS industries.

- Achieved the successful integration of a CRM system, leveraging Laravel and Vue.js, within a substantial E-commerce software environment.
- Successfully contributed to and gained valuable hands-on experience in my initial commercial

project.
